RESIDENT AGREEMENT

As an approved provider Wheatfields Inc. must offer a formal agreement to all new residents before they enter the facility, and may be entered into at any time during the resident’s stay. Residents may consider appointing a guardian or arranging a power of attorney when entering into an agreement. Both enable a third party to make decisions on the resident’s behalf, thereby providing protection for the resident in the event that they become unable to make their own decisions.

An agreement must be signed by both the provider and the resident. Where the resident is physically unable to sign the agreement, the resident may request a representative to sign on their behalf. Where cognitive impairment makes it impossible for the resident to understand and

sign an agreement, the person, a legally authorised representative, should sign on the resident's behalf.

Where a resident agrees to pay an accommodation bond or an accommodation charge, a written agreement must be entered into. If an accommodation bond or accommodation charge is payable the agreement is incorporated into the Resident Agreement.

Residents have the right to choose whether or not they wish to enter into the agreement. If the resident does not wish to have a formal agreement with the care facility, the facility must still abide by the legislative requirements, including the *'User Rights Principles 1997'* to continue to receive Commonwealth funding.

FEES

Basic Daily Care Fees are payable by all residents and indexed quarterly.

- Income Tested Fee
- Accommodation Charge
